TELEX
Radio Dispatch

Public Safety **Solutions**

WHY CHOOSE TELEX?

We are the #1 choice of emergency services because we offer flexible and user-friendly control software, future proof connectivity, and proven reliability in a constantly changing environment.

When someone calls 911, it's generally not because they are having a good day. Callers expect emergency services to be able to provide a coordinated response to deal with a situation that often seems out of the caller's ability to handle.

Our flexible and scalable solutions are found in countless public safety dispatch centers and mobile command vehicles around the world. This flexibility, coupled with our ability to utilize multiple radio technologies and the ability to link them together via IP, allows a coordinated response between police, fire, and EMS, along with other local, state, and even federal agencies in order to take care of the situation.

With the continued pressure on budgets and the desire to consolidate dispatch centers, having a solution that is both adaptable and cost effective is highly desirable. Dispatch solutions that only address one radio technology or one manufacturer of radios can only get you so far when you need to consolidate multiple dispatch operations. The reason being is that quite often the agencies being consolidated use different radio technologies. In order to gain the most from consolidation, you need dispatch systems that can handle it all from one position and that's where we come in. In addition, because our software GUI can be customized to better fit your unique dispatching operation, training time can often be reduced.

So whether it's someone experiencing chest pains, an active shooter, a routine traffic stop, a house fire, or even a forest fire, our dispatch solutions can help you handle the situation.

WORKS FOR **YOU.**

TELEX
Radio Dispatch

Because Telex Radio Dispatch is a Bosch brand, we offer a full spectrum of solutions that can be integrated together to meet your unique needs, whether it's for **dispatch, public address, conferencing, CCTV, fire, or security** – to name a few!
