

AIRTRBO™ SLR RDS

The Transportable MOTOTRBO™ SLR Rapid Deployment System

AIRTRBO™ SLR RDS has taken Motorola's MOTOTRBO™ SLR5000 series repeaters to the next level by making them transportable.

The entire system is conveniently packaged together with a duplexer in a hard-shell mobile case, allowing easy access to its connectors and interfaces via a customized panel.

The AIRTRBO™ SLR RDS is available as an integrated solution or as a field retrofit kit (without repeater and duplexer), and is compatible with the following MOTOTRBO™ 50W repeaters:

- SLR5100 (LATAM)
- SLR5300 (ASIAPAC)
- SLR5500 (EMEA)
- SLR5700 (North America)

Warranty: 2 Years for the SLR repeater, 1 year for accessories

Communication Solutions When It Matters

Ready for Mission Critical and Emergency Situations

AIRTRBO™ SLR RDS is the perfect solution for MOTOTRBO™ users dealing with mission critical applications when communication back-up or increased capacities are in high demand for immediate deployment.

Featuring:

- External panel allows all needed connections to be done with the case closed: RF, Ethernet, USB, AC/DC Power or other customized connections
- Fan-based ventilation system
- Compatible with 50W Mototrbo™ SLR5xxx repeaters
- 110VAC/220VAC or 12VDC power supply, with protection against double powering
- Independent operation, IP Site Connect® or trunking capabilities (with appropriate licenses)
- Internal duplexer (standard) or two antenna operation

Dimensions: 56.5 x 57 x 25cm

Weight: approx. 19 kg (including SLR repeater and duplexer)

Operating temperature range: -30°C to 55°C

AIRTRBO™ RDS is ready to go wherever and whenever you need.

Its portability allows for easy transportation and fast installation in the field.

Applications may include:

- Public Safety
- Military (coast guard, aviation, etc.)
- Security
- Industrial
- Utilities
