O ICOM

VHF MARINE TRANSCEIVER with DSC

IC-M93D

World's Slimmest Floating DSC Radio

2.3" Large High Visibility LCD

2.3" large, high contrast and full dot-matrix LCD ensures good readability under direct sunlight. Large compass screens and large character size provide at-a-glance information.

Slimmest* Floating DSC Radio

By adopting a flat sheet keypad, at 38.5mm (1.52in) the IC-M93D is the slimmest floating DSC handheld radio at the market. The comfortable fit in your palm enhances the ease of use. * As of June 2016, researched by Icom.

Intuitive User Interface

For an operator not familiar with DSC radio operation, the combination of the four directional keypad and software keys provides straight-forward operation of all functions.

Built-in Class D DSC

A dedicated DSC receiver continuously monitors CH70. Distress calls can be made with the rear panel button.

Float'n Flash and MOB Auto Set Function

The IC-M93D floats and flashes on the water. At that time, the radio automatically switches to the Man Overboard distress call mode which can then be made by pressing and holding the distress button.

GENERAL

Frequency range

Type of emission

Usable channel groups

Current drain (at 7.2V DC)

Tx (5.0W/1.0W output)

Rx (Inter SP/Exter SP Max. audio)

Integrated GNSS Receiver

The integrated GNSS receiver provides your location, bearing and speed with fast-setup time and pinpoint accuracy by using information from GPS, GLONASS, QZSS and SBAS.

Active Noise Canceling

Active Noise Canceling digitally removes background noise from both transmit and receive audio and provides clear communication in a noisy maritime environment.

9 Hours* Long Battery Life

The IC-M93D provides 9 hours* of long battery life while continuously monitoring CH70.

* Typical operation with Tx: Rx: standby = 5: 5: 90 (Power save: ON)

Other Features

- IPX7 submersible (1m depth of water for 30 minutes)
- Navigation function from current position to the specified waypoint
- 50 waypoint memories with alphanumeric name for Navigation
- Weather channel receive with alert function (depending on version)
- Dual/Tri-watch function for monitoring CH16 and/or call channel
- · Battery indicator shows remaining battery power in four levels
- · Favorite channel function for quick access to often used functions
- AquaQuake[™] draining function clears water away from the speaker grill
